

# Can you help us improve services?

**NHS**

Greater Manchester  
Neurorehabilitation & Integrated  
Stroke Delivery Network

## Longer term support for neurological conditions

**We are reviewing if people affected by neurological conditions in Greater Manchester are getting the right long-term support.**

### WHO

We want to hear from people who:

- Have lived experience of a neurological condition, but not a stroke. It could be as a patient, or as someone close to someone who is affected
- and
- Live in Bolton or other areas of Greater Manchester

### WHAT WILL I BE ASKED TO DO?

Share your experiences, ideas of things that could be changed, and help to make decisions. We can be flexible about how you do this. It might be attending a focus group or other meetings or reviewing documents online.

### HOW MUCH TIME WILL IT TAKE?

The review is due to start in September 2024 and last for about a year. You can be involved for some or all the time.

### WHY DO YOU WANT TO INVOLVE ME?

We want to hear from people with lived experience to make sure we focus on reviewing the right things. You can help us do that, and it can help you too. Get in touch to find out more!
